Product Information

Part of the Classic Collection

Cast stone jardinière for indoor or outdoor use.

The **Grape Motif Jardinière** boasts an intricate pattern of grapes, leaves, and vines that climb around the barrel. Based upon a traditional Italian design, the jardinière is often purchased with [Grape Motif Urns](#) to create a grouping, as the urn is a footed version of the jardinière.

This photograph highlights our three classic jardinières. The **Grape Motif Jardinière** sits atop the [Small Estate Display Column](#) on the left, with the [English Country Jardinière](#) displayed on the [Medium Estate Display Column](#). The regal [Lion Head Jardinière](#) rests on the ground.
